

SHIN LE

Data Analyst

shinle666@gmail.com 772-285-6483 [LinkedIn](#) [GitHub](#) [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Data Analyst with a strong mathematics background and a knack for uncovering actionable insights from complex datasets. I combine technical expertise in SQL, Python, and Tableau with business acumen to drive data-informed decisions. Proven ability to translate raw data into compelling narratives that stakeholders can use to optimize operations and boost profitability.

TECHNICAL SKILLS

Data Analysis: SQL (PostgreSQL, MySQL), Python (Pandas, NumPy, Matplotlib, Seaborn), R, Excel (Advanced Formulas, PivotTables, VLOOKUP), Statistical Analysis

Data Visualization: Tableau, Power BI, Dashboard Design, KPI Development, Data Storytelling, Interactive Reports

Business Intelligence: Data Warehousing, ETL Processes, Data Modeling, Report Automation, Business Metrics, Performance Analytics

Tools & Platforms: Git/GitHub, Jupyter Notebooks, Google Sheets, AWS (S3, Redshift), REST APIs, JSON, Google Analytics

Statistical Methods: A/B Testing, Hypothesis Testing, Regression Analysis, Time Series Analysis, Predictive Modeling, Data Mining

DATA ANALYSIS PROJECTS

Mentivio: Mental Health Assessment Analytics

September 2025 – Present

- Analyzed clinical assessment data to identify patterns and correlations in mental health indicators
- Designed data collection protocols and quality assurance checks for sensitive health information
- Created visualization dashboards that track user engagement and assessment trends over time
- Implemented statistical analysis to validate assessment accuracy and identify improvement areas

World Stock Market Analysis & Prediction

May 2025 – June 2025

- Conducted comparative analysis of 60+ global brands across 5 market sectors using 20+ financial indicators
- Engineered SQL queries to process and analyze 5+ years of historical market data
- Designed Tableau dashboards that visualized risk assessment, sector performance, and investment opportunities
- Developed predictive models that achieved 85% accuracy in identifying market trends for timing decisions

Superstore Performance Analysis & Business Intelligence

April 2025 – May 2025

- Analyzed 4 years of retail data (10,000+ transactions) to identify profitability trends and operational bottlenecks
- Built interactive Tableau dashboards that revealed a 19% profit peak in Q1 2017 and identified late shipments costing 15% in lost revenue
- Developed 10+ actionable recommendations that could improve operational efficiency by 12%
- Created executive-level reports that communicated complex findings to non-technical stakeholders

PROFESSIONAL EXPERIENCE

Mathematics Tutor & Academic Coach

August 2024 – April 2025

Mathnasium Learning Center

- Developed a data tracking system to monitor student progress, resulting in 25% faster learning outcomes
- Analyzed student performance patterns to customize teaching approaches, improving average math grades by 1.5 points
- Created progress visualization reports for parents, translating complex academic data into understandable insights
- Used statistical analysis to measure teaching effectiveness and optimize curriculum delivery for diverse learners

EDUCATION

Bachelor of Science in Applied Mathematics

Florida State University

Relevant Coursework: Statistical Methods, Data Analysis, Computational Mathematics, Probability Theory

Associate of Arts in Mathematics

Indian River State College

Graduated with Honors, Dean's List

CERTIFICATIONS

IBM Data Analyst Professional Certificate

July 2023

IBM Data Science Professional Certificate

May 2023
